Overview

Urbane Studio was established in 2014 and since then it has spread footstep in various fields of architecture. U Studio has successfully delivered many projects including some national-level projects and continuously looking forward to extending its work diversity as well.

In the future, U Studio strive to work in areas related to sustainable development in emergency conditions like disasters and to develop a model for disadvantaged people.

About us:

People are inherited with dream, the probable only thing that he bears from the very beginning of his life. Everybody has got their own dreams. It may differ with the type, but each person has their own dream for sure.

We are here to help you to fulfill your dream, even in a very small sector. We respectively be incorporated with your dreams, analyze it & then come up with an idea, in which we try to fulfill your dream with logical solution.

We use the word Architecture instead of creation, as architecture is a part of creation. We confidently assure you that we are very dedicated to this part.

Our Intentions:

- To built our project commercially feasible & architecturally aesthetic.
- Maintain a good company to client relation.

Our Motto:

- Time & word are the two things we give maximum priority.
- We try to come up with a project considering your possible budget.

Building value:

Perpetually inspired by the principles of sustainable development, the Concern leverages technological and organizational innovation and harnesses the power of its extraordinary human and professional resources.

Our Success:

We believe in people. Behind every major infrastructure project, in every corner of the world, there is the hard work and creativity of thousands of people. Highly-skilled professional men and women are the key to a success.

- We believe in challenges and in continuous improvement
- We believe in Our People.
- It is through them that we can really add value.

“Good Architecture is like a good therapy session, a good marriage, a good poem- gently and almost invisible allowing you to be you, as flood and as beautiful as you are”

-Robert Sullivan

Clients

Exposing opportunities within the fabric of localities and revealing new ways of seeing and using them form the basis of the work.

Our approach recognizes the challenge of finding solutions that go beyond conventional views of urban development to embrace new desires and images for cities.

Urbane Studio develop a project following some simple steps;

1. To understand the client's requirements carefully
2. Analyze the project feasibility and clients requirements regarding context
3. Develop an functional idea, share it with client and finalize the function
4. Develop the project through different process.
5. Deliver the project and follow-up it through end.
6. Solve every challenge at the time and after construction.

A lot of satisfied clients have been cheering U Studio after being facilitated with their projects through these steps.

A short and selected list of some projects along with it's respected client is attached below;

"Architecture is really about well-being. I think that people want to feel good in a space... On the one hand it's about shelter, but it's also about pleasure."

-Zaha Hadid
